

Spare Parts

2026 CATALOG

ROCK SHOX

How to use this Spare Parts Catalog

RockShox spare parts, service kits, and upgrade compatibility are defined by the seatpost, fork, or rear shock's MODEL CODE. To find the appropriate parts, follow the instructions below.

1. Find your serial number.

For assistance in locating the serial number, please refer to the Component Serial Number Locator document.

2. Find your model code.

Determine your model code, download the appropriate service manual, and more, by entering the serial number into the SRAM Service Site or RockShox TrailHead.

- Android TrailHead App
- iOS TrailHead App
- TrailHead Website

3. Decode your model code.

These Model Codes are used to link information to specific products and can be used to search for manuals and documentation, access tuning information within the RockShox Trailhead app, or review spare parts in this RockShox Spare Parts Catalog.

Model Code example: FS-PIKE-ULT-B4

FS = Product Type: Front Suspension

PIKE = Platform/Series: Pike

ULT = Model: Ultimate

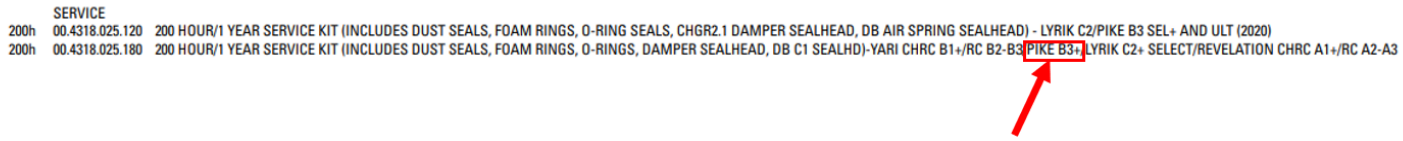
B4 = Version: B - second generation, 4 - fourth iteration

4. Now, find the right page using that information.

-Click your model.

-Scroll to the page with your specific generation.

-Then check the description to confirm the compatibility of the part you need.
NOTE: Service kits labeled "GENERATION-A/B/C/D" work with all models within that generation.



***Pro Tip:** Use the "find" function (Ctrl/Command + F) and search for your model code to jump straight to the appropriate page.

Need help? Contact RockShox Rider Support for assistance.

Notes:
ns = not shown
Year designation denotes model year, not manufacture date

Determining manufacture date from serial number:
25T1XXXXXXX -
'25' is the week of the year in which the product was made
'T' is an abbreviation for factory location
'1' is the last digit of the year in which it was made (2021 in this case)

Refer to the www.sram.com/service for service instructions, oil volumes and torque values.
